Pro2Serve Announces Key Promotions

Oak Ridge, Tennessee, September 2009 – Professional Project Services, Inc. (Pro2Serve) announces the promotion of Dr. Ron Canon to Vice President and Senior Environmental Program Manager and the promotion of Joe Hedges to Vice President and Chief Engineer.

Dr. Ron Canon joined Pro2Serve 5 years ago after serving in a host of engineering project leadership roles for Oak Ridge National Laboratory (ORNL), the Y-12 Nuclear Weapons Complex (Y-12), and East Tennessee Technology Park (ETTP). His 30 year career with the Oak Ridge plants includes holding various research and development positions at ORNL; managing numerous new waste storage, treatment and process facilities; and serving as Manager of Design Engineering for the Y-12 Plant. His research activities included resource recovery from low grade ores, nuclear fuels development related to various reactors, and contributions to the Advance Fuel Cycle Initiative. Dr. Canon currently leads Pro2Serve's support to DOE Oak Ridge Office's (ORO) American Revitalization and Recovery Act (ARRA) and Integrated Facilities Disposition Projects.

Mr. Hedges joined Pro2Serve last year after a distinguished 25 year career in the Navy where he was responsible for facility engineering, maintenance, and construction management. He has extensive experience in large campus facility management to include master and strategic planning as well as design/build projects and federal capital acquisition projects. Since joining Pro2Serve, Mr. Hedges has played a key role in several of Pro2Serve's large engineering projects being performed for DOE sites nationally. As Chief Engineer, he will be responsible for all of Pro2Serve's engineering products, processes and procedures.

Pro2Serve (www.p2s.com) is a nationally-recognized technical and engineering services firm dedicated to providing critical infrastructure engineering services in support of our Nation's security. Pro2Serve provides innovative solutions to government and private industry on critical security, defense, facilities and infrastructure, nuclear nonproliferation, and environmental projects. Pro2Serve is on the team that was recently selected to design the new NNSA Kansas City Complex. *Engineering News-Record* named Pro2Serve as the 242nd largest design firm and the 15th largest manufacturing design firm in the nation for 2006. It was the only east Tennessee headquartered firm to make the list. Pro2Serve is also a two-time alumnus of the *Inc. 500*, a listing of the 500 fastest growing privately held companies in the United States. In addition to Tennessee, Pro2Serve has offices in California, Colorado, Idaho, Nevada, New Mexico, Ohio, South Carolina, Texas, and Washington, D.C.
