*Shaping the Economics  
of Complex Problems Worldwide*

**The Legis-Pro2Serve, LLC Joint Venture (Legis-Pro2Serve)** is a Service-Disabled Veteran-Owned Small Business founded by firms with over 50 years' combined experience providing engineering, project management, and cost services. Our team has completed over 3,500 projects for government agencies spanning over 40 U.S. states and 18 countries. Our firms are consistently rated 'Exceptional' across all areas of CPARS/PPQ assessment criteria.

Legis-Pro2Serve brings architecture and engineering capabilities that are more than the sum of their parts. This results in an increased skill base for contracts requiring engineering services, construction management, and cost engineering. Both founding companies specialize in these areas.

**Legis Consultancy, Inc. (Legis)** (2001) also brings specialization in litigation consulting, expert claims support, software required by federal customers, and more.

**Professional Project Services, Inc. (Pro2Serve)** (1995) brings specialization in all standard A-E disciplines and lifecycle engineering services, including certified designs for construction packages with stamped drawings, and more.

The Legis-Pro2Serve team provides staff at various locations who possess extensive and current project experience at a wide range of worksites and for a variety of clients.
